

Three Beautiful Poems on Silence

by the great mystic **Rumi**

These verses invite us to explore the depths of silence, where language fades away, and contemplation becomes a form of meditation. 🧘🙏

“Your love has brought us to this silence”

Your love has brought us to this silence, where the only obligation is to walk slowly through a meadow and look.

“Let silence take you to the core of life”

Let silence take you to the core of life. I choose to love you in silence, for in silence I find no rejection.

“Be quiet, the secret cannot be spoken”

Be quiet, the secret cannot be spoken, It is wrapped in silence. All is known in the sacredness of silence.
